

Solar LED Light ZQL-S717 120W

SKU: CLS-025

Details

The LED Solar Light (all in-one) has been specifically designed to allow high performance in light as well as offering back-up solutions for days of low-light.

With the option of different sized solar panels at the top of the light, the LED Solar Light comes in various power outputs to fit your unique project requirements.

The system has been designed to use Lithium Iron Phosphate (LiFeO4) batteries that has a well-defined performance, long-term stability and are very efficient.

The Solar Array is durable against extreme weather conditions and has advanced glass and solar cells surface texturing that allows for excellent performance in low-light environments.

Specifications

SKU	CLS-025
Colour/Finish	Silver
Ip Rating	IP68
Globe Quantity	0
Kelvins	3000K, 4000K
Efficacy	NA
Average Rated Life	25 years lifespan
Material	ADC12 High Pressure Die Cast Aluminum
Double Insulated	false
Ambient Temperature	suitable for high temperature areas
Brand	Envirolux
