Bridge 2 Light Up/Down Wall Light in Lava Stone

SKU: 231441

Details

Introducing the Bridge collection of exterior lights: a blend of natural texture, architectural form and durable performance designed for both outdoor and indoor spaces. Featuring a clean cylindrical silhouette with a curved front profile, Bridge creates a refined up/down lighting effect while adding strong material character to the wall. Crafted from natural stone, this range is available in travertine and lava stone finishes, offering a timeless aesthetic suited to contemporary, coastal and organic-inspired designs. Built for outdoor use, the Bridge up/down wall light brings both functionality and visual appeal to exterior walls, entryways, patios and indoor feature spaces. Each light comes with a 5-year warranty and is designed to create ambient illumination from both the top and bottom of the fitting, making it a practical choice for adding depth, warmth and architectural interest to your surroundings. Each piece in the Bridge range is crafted from natural stone, a material known for its unique variation in colour, texture, veining and surface detail. Subtle differences in tone, markings and finish are inherent to the natural stone construction and contribute to the individual character of each item.

Specifications

SKU	231441
