Gala LED Day Night Sleep Round Step Light in White

SKU: 300884

Details

Our Gala collection of step lights comprises three unique designs, Arch, Linear and Round. Each provides not only individual styling but varying light outputs.
Arch casts a wide, diffused spread of light that falls close to the wall and tappers off on the edges. Great for narrow hallways and general-purpose lighting.
Round offers a wide but even spread of light. Featuring a scallop-shaped effect, similar to that cast by more architectural downlights. Excellent for general stair, entry and hallway lighting.
Linear throws a deeper, narrow beam with a more cut-off edge. Ideal for highlighting individual steps or where you'd like to see a more distinct architectural light effect.
Our entire Gala step light collection also features Live Well Day Night Sleep technology. Engineered to help you get the most out of your day, increase concentration and improve your sleep.
During the day, the Day Scene setting fills your space with energy-boosting light scientifically proven to make you feel more alert and energised.
When set to Night, the health light reduces blue light and lowers the colour temperature to promote the production of melatonin, the hormone which prepares your body and mind for sleep.
When it's time for bed, the Sleep Scene provides an ultra-soft and warm light that's perfect for late-night thoroughfares and bathroom wakeups without causing further interruption to your body's melatonin production.
Accessing these settings is incredibly easy via a standard wall switch. Flick Off/On within 3 seconds to cycle through the three scenes – Day (4000K 100% brightness), Night (3000K 100% brightness), and Sleep (2200K 10% brightness).
