

# LIFX SuperColour 12.2W Recessed Dimmable 90mm Cut Out Smart Downlight with RGB + Full White Spectrum

SKU: 170894

**Details**

This LIFX SuperColour Recessed Downlight is about to redefine your idea of “mood lighting.” Once installed, you can use bright whites to invigorate and illuminate your entire workspace. Flip to a bold blue to enhance your creative corner. Fade into lilac to transform your humble bathroom into a high-end spa. Then dim to warm ambers to get ready for bed. And you can do it all with schedules, app control, or voice commands. Now that’s a smart light.

**Magnetic Faces:** White with optional Black trim or Flush Diffuser. Swap your style and colour.

Key Features

Brightest colours with 1000 lumens

LIFX SuperColour LEDs = 5x brighter colour*

Broadest white spectrum 1500K - 9000K

Works with Google, Amazon Alexa and Apple HomeKit

Interchangeable Magnetic Facias

No bridge or hub required

Designed in Melbourne

Interchangeable Magnetic Facias

Switch up your style in a snap with interchangeable white and black fascias! Whether you're feeling a sleek black look for that modern, edgy vibe or a crisp white finish for a clean, minimalist aesthetic, you’ve got options. It’s all about making your lighting match your space your way.

But wait, there’s more

Pop on the flush white diffuser for an extra style twist! Not only does it look great, but it also softens the light and spreads it more evenly, creating a cozy, ambient glow. With this kind of flexibility and vibe-enhancing illumination, your space will always be looking its best.

High Colour Rendering Index 90+

With a 90+ CRI, the LIFX Recessed Downlight makes everything look *better*—think richer colors, truer tones, and an all-around more vibrant vibe. It brings out the best in your space, from the textures in your furniture to the details in your decor, making your home, office, or retail space feel next-level awesome.

Plus, it’s easy on the eyes—literally. With more accurate lighting, you get less eye strain and a more comfortable, natural-looking

glow. Whether you're showcasing artwork, adding depth to your interiors, or just making your space feel extra inviting, this high-CRI downlight totally upgrades your lighting game.

Super Bright

The LIFX SuperColour Recessed Downlight is our brightest yet, blasting out 1000 lumens (a hefty 75W equivalent) with a sleek 90° beam angle. Brighter lighting makes your home feel bigger, livelier, and more inviting—perfect for everything from cooking to getting stuff done. The narrow beam adds a premium touch, focusing light where you need it and creating that luxe, high-end vibe. Think gallery lighting, but for your home. Bright, bold, and beautifully precise!

Rated for safety and peace of mind

Built for safety, designed for anywhere! The LIFX SuperColour Recessed Downlight is IC-4 rated (yep, that means it can be safely abutted and covered) and boasts an IP65 water resistance when the flush white diffuser is used, making it a worry-free choice for any room—including steamy bathrooms. So go ahead, install it in your ceiling with confidence, knowing it's built to handle the heat (literally). Whether you're lighting up a cozy living space or a splash-prone bathroom, you'll enjoy total peace of mind—no flickers, no fuss, just beautifully bright lighting where you need it most!

Designed in Melbourne

Did you know LIFX started in Melbourne in 2012? And they are still based in the creative tech-hub of Cremorne. Their team of in-house Engineers and Product Designers worked passionately on the Recessed Downlight with the goal of bringing the best and brightest offering of Smart Lighting to Australia, and the rest of the world.

**LIFX colours have tested up to 5x more powerful than other smart brands across flagship products. Visit lifx.com/supercolour for details.*

**Compatible with:** Matter, Google Home, Apple Home, Alexa, Samsung SmartThings, Home Assistant, Razer Chroma.
