

Lucci 2 Metre Aluminium LED Recessed Ceiling Profile in Silver

SKU: 177137

Details

Create a refined architectural line of light with this 2 metre recessed ceiling aluminium profile in silver and opal. Designed to sit neatly within plaster ceilings, it is ideal for hallways, kitchens, living areas and feature lighting where only the illuminated line should be visible.
The recessed design delivers a clean, professional finish. The aluminium channel helps protect the LED strip during installation, while the opal diffuser creates a softer, more even light effect. The profile can be cut to size to suit your ceiling layout.

Compatibility

Designed for use with Lucci Glow Classic and Lucci Glow Dynamic LED Strip Light kits. Compatible with LED strip up to a maximum width of 11mm.
